VAPEN MJ VENTURES CORPORATION

Notes to Unaudited Condensed Consolidated Interim Financial Statements

June 30, 2019

(Expressed in U.S. Dollars)

(Unaudited)

1. NATURE OF OPERATIONS AND GOING CONCERN

The condensed consolidated financial statements represent the consolidated accounts of Vapen MJ Ventures Corporation, which include its wholly owned subsidiary, New Gen Holdings, Inc., which in turn has the following wholly owned subsidiaries: Step 1 Consulting, LLC (incorporated in Delaware); New Gen Admin Services, LLC; New Gen Agricultural Services, LLC; X-Tane, LLC; New Gen Real Estate Services, LLC; and Hydroponics Solutions, LLC (all incorporated in Arizona) (the “Company”). The Company provides management, advisory, cultivation, and dispensary services to non-for-profit entities in the medical marijuana field. The head office and principal address of the Company is located at Suite 1980 – 1075 W. Georgia St., Vancouver, BC V6E 3C9 and the U.S. headquarters is at 777 E Missouri Ave, Suite 200, Phoenix, Arizona 85014.

These condensed consolidated interim financial statements have been prepared on the going concern basis, which assumes the Company will continue in operation for the foreseeable future and be able to realize its assets and discharge its liabilities in the normal course of business. The continuing operations of the Company are dependent upon the Company’s ability to continue to earn adequate revenues from operations, and to raise adequate financing. The Company intends to finance its future requirements through continued operations.

As at June 30, 2019, the Company had working capital of \$22,622,511 and retained earnings of \$15,123,033. Management has assessed that this working capital is sufficient for the Company to continue as a going concern beyond one year.

These condensed consolidated interim financial statements do not reflect any adjustments, which could be material, to the carrying values of assets and liabilities, which may be required should the Company be unable to continue as a going concern.

2. BASIS OF PRESENTATION

a) Statement of Compliance

These unaudited condensed consolidated interim financial statements, including comparatives, have been prepared in accordance with International Accounting Standards (“IAS”) 34 ‘Interim Financial Reporting’ using accounting policies consistent with the IFRS issued by the International Accounting Standards Board (“IASB”) and Interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”). These condensed consolidated interim financial statements follow the same accounting policies and methods of applications as the most recent annual consolidated financial statements of the Company. These condensed consolidated interim financial statements do not contain all of the information required for full annual financial statements. Accordingly, these unaudited condensed consolidated interim financial statements should be read in conjunction with the Company’s December 31, 2018 annual consolidated financial statements.

b) Basis of Preparation

These condensed consolidated interim financial statements have been prepared on a historical cost basis, except for certain financial instruments classified as fair value through profit or loss, and are stated at their fair value. In addition, these financial statements have been prepared using the accrual basis of accounting, except for certain cash flow information. The condensed consolidated interim financial statements, unless otherwise specified, are presented in U.S. dollars.

Notes to Unaudited Condensed Consolidated Interim Financial Statements

(Expressed in U.S. Dollars)

(Unaudited)

2. BASIS OF PRESENTATION (*CONTINUED...*)

c) **Basis of Consolidation**

The condensed consolidated financial statements include consolidated accounts of Vapen MJ Ventures Corporation, which include its wholly owned subsidiary, New Gen Holdings, Inc. which in turn has the following wholly owned subsidiaries: Step 1 Consulting, LLC; New Gen Admin Services, LLC; New Gen Agricultural Services, LLC; X-Tane, LLC; New Gen Real Estate Services, LLC; and Hydroponics Solutions, LLC. A wholly owned entity is an entity in which the Company has control, directly or indirectly. All intercompany transactions and balances have been eliminated on consolidation.

d) **Approval of the Consolidated Financial Statements**

The condensed consolidated interim financial statements of the Company for the six months ended June 30, 2019 were approved and authorized for issue by the Board of Directors on August 20, 2019.

e) **Significant Accounting Judgements and Estimates**

The preparation of the Company's condensed consolidated interim financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported revenues and expenses during the reporting period.

Critical Judgements

The preparation of these condensed consolidated interim financial statements requires management to make judgements regarding the going concern of the Company, as previously discussed in Note 1, as well as the determination of functional currency. The functional currency is the currency of the primary economic environment in which an entity operates, and has been determined for each entity within the Company. Management has determined that the functional currency of the parent is the Canadian dollar, while the functional currency of the subsidiaries has been determined to be the United States (U.S.) dollar.

Key Sources of Estimation Uncertainty

Because a precise determination of many assets and liabilities is dependent upon future events, the preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of assets and liabilities at the date of the financial statements and the reported amounts of expenses during the reporting periods. Actual results could differ from those estimates and such differences could be significant.

Significant estimates made by management affecting the financial statements include:

Allowance for Doubtful Accounts

The Company estimates the amount of accounts receivable that may not be collectable and will allow for a write down of such amounts. Management uses historical information on the recoverability of accounts receivable and also looks at specific account balances in determining the allowance.

2. BASIS OF PRESENTATION (*CONTINUED...*)

e) Significant Accounting Judgements and Estimates (*continued...*)

Key Sources of Estimation Uncertainty (*continued...*)

Deferred Tax Assets & Liabilities

The estimation of income taxes includes evaluating the recoverability of deferred tax assets and liabilities based on an assessment of the Company's ability to utilize the underlying future tax deductions against future taxable income prior to expiry of those deductions. Management assesses whether it is probable that some or all the deferred income tax assets and liabilities will not be realized. The ultimate realization of deferred tax assets and liabilities is dependent upon the generation of future taxable income, which in turn is dependent upon the successful management of marijuana operations. To the extent that management's assessment of the Company's ability to utilize future tax deductions changes, the Company would be required to recognize more or fewer deferred tax assets or liabilities, and deferred income tax provisions or recoveries could be affected.

Useful Life of Property and Equipment

Property and equipment is amortized over its estimated useful life. Estimated useful lives are determined based on current facts and past management experience and take into consideration the anticipated physical life of the asset, the potential for technological obsolescence, and regulations.

Inventory Obsolescence

The Company estimates the amount of inventory on hand that may not be recoverable and will allow for a write down of such amounts.

Share-based Payments

Estimating fair value for granted stock options and compensatory warrants requires determining the most appropriate valuation model which is dependent on the terms and conditions of the grant. This estimate also requires determining the most appropriate inputs to the valuation model including the expected life of the option or warrant, volatility, dividend yield, and rate of forfeitures and making assumptions about them.

3. SIGNIFICANT ACCOUNTING POLICIES

These condensed consolidated interim financial statements follow the same accounting policies and methods of applications as the most recent annual consolidated financial statements of the Company. These condensed consolidated interim financial statements do not contain all of the information required for full annual financial statements. Accordingly, these unaudited condensed consolidated interim financial statements should be read in conjunction with the Company's December 31, 2018 annual consolidated financial statements.

Standards newly adopted

New standard IFRS 16 "Leases". This new standard replaces IAS 17 "Leases" and the related interpretative guidance. IFRS 16 applies a control model to the identification of leases, distinguishing between a lease and a service contract on the basis of whether the customer controls the asset being leased. For those assets determined to meet the definition of a lease, IFRS 16 introduces significant changes to the accounting by lessees, introducing a single, on-balance sheet accounting model that is similar to current finance lease accounting, with limited

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED...)

exceptions for short-term leases or leases of low value assets. Lessor accounting is not substantially changed. The Company choose to apply the effect of changes retrospectively with the cumulative effect of initially applying the standards recognized at the date of initial application which is January 1, 2019 (Note 10).

Other accounting standards and amendments to existing accounting standards that have been issued and have future effective dates are not applicable or are not expected to have a significant impact on the Company's financial statements.

4. ACCOUNTS RECEIVABLES

The Company's accounts receivables consist of the following:

		June 30, 2019		December 31, 2018
Total receivables	\$	18,036,291	\$	27,579,457

13. CAPITAL MANAGEMENT

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to support the growth and development of its operations and to maintain a flexible capital structure which optimizes the costs of capital at an acceptable risk. In the management of capital, the Company includes its components of equity.

The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may attempt to issue new shares, issue debt, acquire or dispose of assets.

13. CAPITAL MANAGEMENT (*CONTINUED...*)

In order to maximize ongoing development efforts, the Company does not pay out dividends. Management reviews its capital management approach on an ongoing basis and believes that this approach is reasonable given the relative size of the Company.

The Company currently is not subject to externally imposed capital requirements. There were no changes in the Company's approach to capital management during the period.

14. RISK MANAGEMENT AND FINANCIAL INSTRUMENTS

The fair value of the Company's accounts receivable, prepaid deposits and other receivables, payables, and current portion of notes payable, approximate carrying value, due to their short-term nature. The carrying amounts of the long-term notes payable approximate their fair values as these liabilities bear interest at variable market rates. The carrying amount of the amount due from related parties approximates its fair value. The Company's cash is measured at fair value under the fair value hierarchy based on Level 1 quoted prices in active markets for identical assets or liabilities. The fair value of the lease liability was determined using the level 2 inputs as discussed in Note 10.

The Company's financial instruments are exposed to certain financial risks, including credit risk, liquidity risk, interest rate risk, price risk, and currency risk.

Credit risk

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations.

The Company is subject to credit risk on its receivables. As at June 30, 2019, the Company was dependent on one major customer from its consulting business segment (Note 15). The majority (\$17,649,576) of the Company's accounts receivable are from this customer.

The Company is of the opinion that it is not exposed to significant credit risk from this customer as at June 30, 2019 as it continues to collect accounts receivable routinely. The Company has no investments in asset-backed commercial paper.

The Company records an allowance for doubtful accounts related to accounts receivable that are considered to be non-collectible. The allowance is based on the Company's knowledge of the financial condition of its customer, current business environment, customer and industry concentrations, and historical experience. To reduce credit risk, cash is only held at major financial institutions.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due.

The Company manages liquidity risk through its capital management as outlined in Note 13. As at June 30, 2019, the Company had cash and accounts receivable of \$23,251,859 to settle its current liabilities of \$2,138,309. Management believes the Company has sufficient funds to support ongoing operating expenditures and meet its liabilities as they fall due.

14. RISK MANAGEMENT AND FINANCIAL INSTRUMENTS (CONTINUED...)

Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, commodity and equity prices, and foreign exchange rates.

a) Interest rate risk

Interest rate risk is the risk the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Company does not hold any financial instruments with variable interest rates, and as a result, is subject to insignificant interest rate risk.

b) Price risk

The Company is not exposed to significant price risk as it does not hold investments in publicly traded securities.

c) Currency risk

The Company's expenditures are predominantly in U.S. dollars, and any future equity raised is expected to be predominantly in U.S. dollars. As at June 30, 2019, the Company had \$2,173,650 financial assets denominated in Canadian currencies. A 10% change in the foreign exchange rate between the U.S. dollar and the Canadian dollar would result in a change on approximately \$217,365 in other comprehensive income.

15. SEGMENT INFORMATION

The Company operates in the United States, and has two major segments of operations, being its management and advisory services to non-for-profit entities in the medical marijuana field, and its sale of various types of low-pressure liquid gas.

Segment information over these two operating segments is as follows:

As at, and for the three months ended June 30, 2019:
